ABOUT

I am a skilled developer with a strong track record of creating high-quality, user-friendly websites. With a passion for problem-solving and a talent for creating, I am able to effectively translate customer needs into functional and visually appealing web solutions. In addition to my technical skills, I am a strong communicator and work well in high-pressure environments.

SKILLS

Javascript	<div><div></div></div>
React	<div><div></div></div>
Html/Css	<div><div></div></div>
SQL	<div><div></div></div>
Redux	<div><div></div></div>
Tailwind	<div><div></div></div>
API Development	<div><div></div></div>
Testing	<div><div></div></div>
Next.js	<div><div></div></div>
Typescript	<div><div></div></div>

2021

Lighthouse Labs

Diploma in Web Development

2014

University of Calgary

International Development

WORK EXPERIENCE

Development Solutions Inc.

2021-2022

- Worked directly with key stake holders, from conception, prototype designs, and design iterations, to implementation and production releases
- Managed the long term health of the codebase, with 75% code coverage of the UI components
- Using React I developed complex features with a wide variety of packages and frameworks that made software delivery fast and stable for clients

Hope International Development Agency

2014-2020

- Demonstrated strong organizational and leadership skills as a Program Manager responsible for 12 international development projects in Africa, Asia, and Latin America
- Successfully secured funding as a grant writer through government and foundations for healthcare, education, agriculture, and finance programs
- Conducted regular monitoring and evaluation reports and successfully transitioned to a full-time fundraiser, raising over 2.4 million dollars annually
